

A decorative border of palm trees surrounds the text. The border consists of a top row of 20 palm trees, a bottom row of 20 palm trees, and two vertical columns of 15 palm trees each on the left and right sides.

# Ocean Show

By Meleane

On last Friday we walked to the hall to see the spectacular "Ocean Show". It was a foggy morning but the sun soon kept us warm.

Nicky showed us and told us facts about the ocean. I learned that if you put one grain of sand in the Pacific Ocean it will take 8 months for that grain of sand to touch the ocean floor. The other thing I learned was that the smallest creature in the ocean is the plankton and the biggest creature is the blue whale. My favourite creature is the blue whale. It is as colossal as Mt Everest!

Finally, I was surprised to see the whole senior school could stand on the blue whale's tail and Nicky took a photo of us!

It was an awesome and marvellous day!
